

CDC Emerger

Materialliste:

Hook:	Tiemco 2487 18 20
Thread:	Black 08
Body:	Peacock herl debarbed
Thorax:	Hare dubbing black
Wingcase:	White CDC feather

1. Tie-in the thread and wind it to the center of the hook shank

2. Tie-in the debarbed peacock herl

3. Fix the peacock herl by winding the thread deep into the curvature of the hook

4. Wind back the thread to the eye of the hook
5. Wind body with the peacock herl
6. Tie-off the peacock herl

7. Varnish body with transparent head cement

8. Tie-in the tip of the white CDC feather

9. Twist some black hare dubbing on the tying thread
10. Wind the thorax

11. Flip the CDC feather over the thorax and fix it loosely

12. Using your dubbing needle, pull back the wingcase

13. Flip the rest of the CDC feather back over the wingcase
14. Wind head

15. Whipfennish
16. Trim excess of the CDC feather
17. Head cement
