

Two feather Mayfly

Materials:

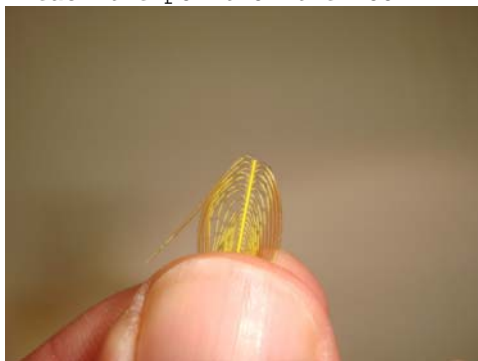

Hook:	Kamasan B100G 10 12
Thread:	Fine Orange
Tail & Wing:	Partridge yellow
Hackle:	Cock brown

- 1 Tie in the thread and wind it in close turns backwards until you reach the point of the hook

- 2 Strip back the feather tips of the partridge feather

- 3 Cut off the tip of the feather

- 4 Using a dubbing needle flip back 2 or 3 feather tips on each side of the quill

- 5 Tie in the feather just above the tip of the hook as shown above

- 6 Wind the thread in direction of the eye trapping all the partridge feather tips

7 Lift the stem of the partridge feather upwards

8 Cut out the quill of the partridge feather

9 Lift the partridge feather tips and wind a few turns in front of this wing

10 Wind the thread backwards 1-2 mm behind the wing

11 Tie in the cock feather

12 Wind the thread forwards to the eye of the hook

13 Wind the hackle in direction of the eye. (3-4 turns behind the wing and 2-3 turns in front of the wing)

14 Wind the head

15 Whipfinish

16 Cut off thread
