

# Woven Wire Nymph

## Materials:

|             |                               |
|-------------|-------------------------------|
| Hook:       | TMC100 or Kamasan B400 #10-18 |
| Thread:     | Black 8/0                     |
| Tail:       | Jungle Cock                   |
| Body        | Black and red wire 0.18mm     |
| Front body: | Purple Floss                  |
| Wingcase:   | Red or Orange Latex strip     |
| Thorax:     | Grey Hare dubbing             |

1 Tie in the thread at the eye of the hook and wind it in close turns to the beginning of the curvature of the hook

2 Tie in a bunch of Jungle cock feather tips as a tail

3 Tie in a black wire and a red wire.  
4 Secure both wires on the sides of the hook shank to the tie in point of the tail. The red wire will be facing to you and the black one will be on the other side of the hook shank.

5 Wind a tapered body with your tying thread  
6 Whipfinish  
7 Cut off the tying thread

- 8 Bring the black wire from the rear side to the front side of the hook shank
- 9 Pass the red wire over the black one and bring it to the rear side passing under the hook shank
- 10 Flip the black wire to the rear side of the hook shank.
- 11 Pass the red wire over the black one and bring it back to the side of the hook shank facing to you by passing it under the hook shank

- 12 Repeat steps 8 to 11 until you have completed the weaving of the body

- 13 Tie in a strip of orange or red latex

- 14 Twist the grey dubbing onto your tying thread and wind the thorax of the fly

- 15 Flip the latex over the thorax to the eye of the hook
- 16 Tie it off
- 17 Wind the head of the fly

- 18 Whipfinish and cut off the thread
